PROFESSIONAL SUMMARY

Entry-level Web Developer with hands-on experience building full-stack web applications using the MERN stack and PHP. Strong focus on clean UI, scalable backend design, and practical project development. Passionate about learning, problem-solving, and contributing to real-world engineering teams.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, SQL

Cloud & Deployment: Vercel, Render

Version Control: Git, GitHub

Tools: Postman, VS Code

PROJECTS

KamiNoto – Note Taking Web Application

Jul 2025 – Aug 2025

MERN Stack

Patna, India

- Developed a secure note management system with user authentication and persistent data storage.
- Implemented note creation, editing, deletion, pinning, and category-based color tagging.
- Focused on clean UI, usability, scalable and maintainable backend architecture
- [View Page](#)

Zenkia – Social Media Web Application

Apr 2025

PHP, HTML, CSS

Patna, India

- Built a lightweight social media platform inspired by X (Twitter) with a structured multi-section layout.
- Implemented user authentication, post creation (text/image/video), likes, comments, and follow system.
- Added notifications, time-ago timestamps, dynamic media previews, and responsive design.
- [Source Code](#)

EchoLocal – Anonymous Location-Based Chat Application

Dec 2025 – Present

MERN Stack, Socket.IO

Patna, India

- Developed a real-time anonymous chat platform using temporary usernames and session-based access.
- Implemented location-based chatroom discovery within a 5 km radius with auto-expiring rooms and messages.
- Built a scalable backend using Node.js, Express, MongoDB, JWT, and Socket.IO for real-time communication.
- [View Page](#)

EDUCATION

LNMI

Patna

Bachelor of Computer Applications (BCA)

Aug 2023 – Present

- Focused on programming, web development, and problem-solving skills.

ACTIVITIES & HACKATHONS

HackIT Hackathon – Amity University: Developed a mentorship website prototype with account creation, messaging, and video meeting features using MERN stack.

TechPillia 8.0 Hackathon – Amity University: Independently built a social media platform prototype (Zenkia) as a solo developer.
